[contact@flyinggroup.aero](mailto:contact@flyinggroup.aero)

Your one-stop-shop for all private and business aviation solutions

FLYINGGROUP is the reference for private and business flights since the company was founded in 1995.

Everyday more than 300 experienced professionals are committed to getting you to your destination in a comfortable manner, with modern aircraft from our own fleet or from one of our partners. Our commitment to you goes a long way. In fact, it takes you all the way, anywhere you would like to venture. You see, we don't just fly passengers, we accommodate guests. We meet your requests with outstanding service and dedication to detail. From engineer to crew, our team tends to your seamless and carefree travel experience.

## DESTINED TO DELIGHT

# YOUR AGENDA IS OUR PLAN

Opting for a private aircraft significantly affects your way of travelling. Expect a completely unique and hassle-free experience from start to finish.

You will not only save a vast amount of time on your way to the airport, from your ground transport to the aircraft and in the air. You will also do it in all comfort, luxury and tranquillity. Flying private allows you to save on average 127 minutes per flight in comparison to scheduled airlines.

All the while you can stay connected, have confidential meetings, have productive time to work or lean back and enjoy the journey thanks to the latest technologies and privacy on board.

The virtually limitless flexibility allows you to depart where and when you want, make a stop to pick up a client or combine multiple destinations in one trip. Just fasten your seatbelt and relax. We take care of everything.

# AVIATION CONSULTANCY

You are considering using, leasing or buying a business jet, but you are not quite sure on how to start? Or would you like to further optimise the management of your current private aircraft, its operations, finances, legal framework, taxes or administration?

Here at FLYINGGROUP we have over 25 years of experience and 675 years of combined know-how in our management team. We are happy to help you through the whole process from idea to flight, a one-stop-shop for all aviation needs.

# AIRCRAFT MANAGEMENT

Owning and managing a jet can be quite demanding. The stringent administrative and technical requirements are immense and keeping the costs under control requires experience and know-how. At FLYINGGROUP, we are happy to help you under a transparent arrangement that offers full disclosure on all aspects of your aircraft's management.

We keep your aircraft in mint condition, compliant with the prevailing European regulations.

Our team of over 300 experts currently oversees a fleet of 50 aircraft, making FLYINGGROUP a major operator. Furthermore, we run an official maintenance facility providing support from routine inspections up to comprehensive maintenance.

Some of our clients rely on us to make their jet a source of income, extending its use to third party charters. What would a flight be without the 'return', right?

"MANAGEMENT OF YOUR AIRCRAFT  
IN THE HANDS OF SPECIALISTS."

# SHARED OWNERSHIP

This formula enables you to fully tailor the use and accompanying costs of flying a private jet to your actual needs. It limits your investment to your personal share, splitting fixed and overhead costs between all owners. We organise and arrange all essentials for management, maintenance and operations. You travel at any time, and at affordable rates, offering you attractive tax options on top of that.

At FLYINGGROUP co-ownership does not limit you to one single aircraft: we have an entire fleet at your disposal, allowing you to fly with various aircraft on the same day.

So, do you share our enthusiasm on sharing ownership?

"MAXIMAL FLEXIBILITY IN TRAVEL AND  
MINIMAL EXPENSES IN OPERATIONS?  
SHARING AN AIRCRAFT IS A SENSIBLE  
WAY TO ENJOY THE BEST OF BOTH  
WORLDS."

# FLYINGCARD

Travelling frequently? At FLYINGGROUP, we offer you the flexibility you are looking for, without any long-term commitment. Benefit from guaranteed aircraft availability without the financial investment tied to the ownership of an asset.

Rest assured. Our FLYINGCARD guarantees you an available airplane up to 24 hours before departure, at a fixed rate per flight hour.

Rely on us to provide you with the right aircraft, be it from our own fleet or a selected partner's fleet. No need for any administrative hassle with payments or contracts before a flight, a simple phone call or message suffices to reserve your airplane. As always FLYINGGROUP guarantees full transparency: you are only charged for the hours you effectively fly, after each itinerary a flight report will be issued and the agreed hourly rate remains valid for 12 months.

"RELY ON US TO PROVIDE YOU WITH THE RIGHT AIRCRAFT, BE IT FROM OUR OWN FLEET OR A SELECTED PARTNER'S FLEET!"

# FLYINGPARTNERS

"A PARTNERS-ONLY CLUB WITH  
ACCESS TO HIGH PERFORMANCE,  
SINGLE ENGINE TURBOPROPS!"

Become a Partner and travel throughout Europe at unmatched speeds and economical rates. Gain access to small aerodromes with short & unpaved runways to further minimise your door-to-door travel time.

Fly on our Pilatus PC-12NG, Socata TBM 850 or any future addition to the fleet at your convenience.

No hassle with charter contracts and ad hoc payments: book your aircraft directly and settle the bill afterwards.

# AIRCRAFT CHARTER

"THE RIGHT SOLUTION FOR  
EVERY OCCASION."

Prefer to travel on your own terms? We understand only too well. Take off at any moment and travel with unmatched speed and flexibility between any two points on the map, savouring the convenience and privacy of a charter flight and the outstanding FLYINGGROUP hospitality.

Combining our own fleet and the offer of dependable partner operators, we present you a wide variety of aircraft to suit your particular needs, whatever the desired capacity, service, range or budget.

Rely on us to manage your door-to-door travel experience by providing you with top quality airport lounges and transport to and from your flight by taxi, limousine or helicopter.

Contact our Charter Department 24/7 or request your quotation now on our website!

# GROUND HANDLING

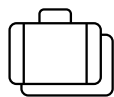

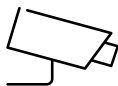

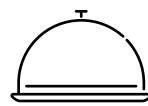

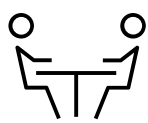

We proudly welcome you in our remarkable zero-energy building in Antwerp, the world's diamond capital.

Drive up to our curb or leave your car in our secured private parking lot. Unwind in passenger and business lounges or connect with your associates in one of our corporate meeting rooms. Every space provides multimedia access, daily press, a wide selection of beverages and quality coffee.

Meanwhile we are pleased to assist you with booking of hotel packages, arranging VIP catering, organising taxi and limousine services, rental cars, or airport and helicopter shuttle services.

Pilots can shower, retreat in private quarters and interact with FLYINGGROUP's Operations Control Centre regarding their next flight.

## WELCOME TO ANTWERP AIRPORT

# AIRCRAFT MAINTENANCE

"LEAVE THE MAINTENANCE OF YOUR  
AIRCRAFT IN THE HANDS OF SPECIALISTS"

In the accredited facilities of FLYINGGROUP we have plenty of space for service and maintenance, but no room for error. Needless to say, we only employ top engineers and experienced technical staff to ensure high-level safety. FLYINGGROUP meets the highest safety and quality standards of the European Agency for Aviation Safety and is since 2019 also able to service aircraft registered in the United States of America. The FLYINGGROUP PART-145 is an approved Williams Service Center, which allows us to take special care for your aircraft's engines.

Rest assured, we have the infrastructure and expertise required to maintain your aircraft. Our maintenance crew is available for any line, base or AOG maintenance requirements.

Hours before you take off there is already considerable activity around your aircraft. As a standard service, FLYINGGROUP's engineers perform a thorough inspection prior to each flight mission to have your aircraft fully polished and ready to ensure a unique flight experience.
